

# PERPETUAL ASOGWA

## PROFILE

I am a web developer with expertise in frontend and good knowledge of backend. I build websites and web applications that scale and satisfy you and your clients.

## EDUCATION

### BSc Computer Science - University of Nigeria, Nsukka (in view - 2026)

Sept 2022 - Sept 2026

- GPA: 4.0.

## EXPERIENCE

### Frontend developer - Survivors Lounge

June 2025

- Worked freelance with another developer to build the website for a Non-Governmental Organization. We delivered a site that fully communicated the needs and goals of the platforms to the public.

### Software Developer - UniTrack

Nov 2025 - Present

- Building a project reporting and supervision platform for my university to do the following:
- automate the management of supervisors and assigning them to students by departmental admins.
- Provide supervisors with a platform where they have access to all the students whose projects they supervise and carry out the supervision there.
- Students can log in, have their supervisors and submit their projects to them and get feedback instead of the manual process.

## SOFT SKILLS

- Team work
- Leadership
- Communication
- Problem Solving

## LEADERSHIP POSITIONS HELD

### Frontend Lead - Shecode Africa UNN

Nov 2024 - Present

- Serving as the frontend lead for a community of young women in tech to inspire, organize events, meetups, workshops and technical activities for the community women.

### Technical Lead - Google Developer Group on Campus, UNN

Nov 2025- Present

- Serving as the technical led for the GDGoC community where I, along with other leads lead technical workshops on google tools, and facilitate community activities.
